

## Facets Of Faith

PROF M M GOEL

**T**o resolve issues and remove conflicts basically caused by distrust, we need to understand, analyse and interpret the various facets of faith.

Faith is necessary and sufficient condition for relationship management at all levels. For becoming capable of

achieving our objectives, goals and targets of various kinds, we need to grow faith in god along with self as soul. For the cultivation of faith among all relationships at home, neighborhoods to international diplomatic relationships, we need the fertiliser of originality possessing the capabilities of increasing fertility. The flame of faith can be grown in the pure hearts only. I wish to draw attention of the readers on my neighbors accusing one another for claiming the ownership of the house with false allegations for want of faith. A retired officer of Haryana bought the house in the name of his wife now a widow living in Canada. Two of her sons migrated to Canada and are permanent residents there. The family of the third son who expired a few years back (the widow and three sons) have been living in the house for the last 25 years with all documentary proofs. The old lady with eldest NRI son now in India is trying her level best to get the house vacated by making false allegations against the widow of her younger son who has no source of income. Let the wisdom prevail with the old NRI lady to treat the widow of her third son with empathy, if not sympathy, and resolve the issues amicably with faith in herself and god.

To reduce the gap in any relationship, we need to create strong faith among ourselves. Faith is the miracle rope for achieving the targets automatically attracting the attention of god. Full faith along with confidence, morality and values provides guarantee of success in every walk of life. The right path is shown to directionless travelers in their journey. Faith is capable of removing wrong tendencies cropped up in the minds. Faith is fundamental for worship, love, happiness and sense of belonging in the family and institutions. The blessings of god can be obtained by one who has firm faith in the self. We can be on the right track of progress, peace and prosperity with full faith. Purity of faith is a great motivator and creates a space for *satvik* values to flourish. The high frequency of faith is essential for getting the blessings and kindness of god as well as god fathers of democratic setup in present times. Let us stop blame game and war of words for accusing one another for the prevailing problems of behavioral pollution.

Enthusiasm can be enhanced by complete and absolute faith in the capacities and capabilities of oneself and trust in god. To take a bath in the river Ganga for purification of the physical body, we need to be motivated with faith. Faith is the safety jacket of the person who believes in work is worship and vice-versa. Faith is the *mantra* of spiritual bliss and real pleasures of life. Faith is the lifeline of physical prosperity, mental happiness and spiritual progress for every one of us. Let us accept and adopt this reality for making our lives happy devoid of materialistic miseries and pains. Faith strengthens relations and adds values to one's life. It is one of the most important assets god has created for humans, who can and should make the most of it to survive odds and thrive as well. Needless to say, faith is the real *mantra* for survival for those who have nothing to fall back on other than the Almighty.
