RGNIYD during 2022 – 2023 : A Synopsis

The operations of an Institute like RGNIYD require the collective cooperation and support of various stakeholders. It is akin to the performance of a well-oiled machine, which operates in harmony without hindrance posed by any of its smaller parts. Coming out of the pandemic era, the institute was posed with multiple challenges, especially with the expansion of the number of academic departments, which had been quite recently Introduced, and various activities conducted by these departments.

The dexterous leadership of the Hon'ble Prime Minister of India has enabled the government to envision an approach that is cognizant of divergent realities. The various models of self-reliance and cleanliness, namely *Atmanirbhar Bharat* and *Swachh Bharat*, have been trendsetters in their ways and RGNIYD took various steps to adopt these models and make effective use of them in charting out the future goals and aspirations of the youth. Combined with this, the support received from the Executive Council, the Academic Council, and the officials of the Ministry of Youth Affairs and Sports, has indispensably aided and supported the proper functioning of RGNIYD and its two regional centres in Chandigarh and Arunachal Pradesh. This has further enhanced and aided the institute to contribute towards nation building.

The new courses launched during the previous session started flourishing during the 2022-23 session. Multiple Board of Studies meetings were conducted to finalize the curriculum of the newly launched courses, namely, MA in English, Sociology, MSc in Mathematics, Computer Science (AI and ML, Cybersecurity, and Data Science). These meetings were held in the months of July and September 2023. What was significantly notable about this period was the registration of the Institute on the CUET portal. From the 2022-24 Batch onwards, the student admission for the institute is happening through the CUET portal. This has led to the diversification of the admission process and students from all parts of the country are now getting enrolled for courses in RGNIYD

The institute continued with its legacy of training the youths of the nation with specific skill-based and job-oriented programs, as well as sensitizing them about various socio-political and cultural issues, over the complete period being covered in this report. Numerous programs were organized, both virtually and physically, at regular intervals. RGNIYD conducted a total of 61 training programs till March 2023. The newly set-up regional centre in Arunachal Pradesh had also organized 4 training programs and multiple competitions during the reporting period. The various issues addressed through such programs ranged from gender sensitization, personal hygiene and personality development, to the celebration of the 75th anniversary of India's Independence. Many of these training programmes were conducted in collaboration with other universities and institutes.
