## A Two-day Workshop on Cyber Security and Ethical Hacking

### About the workshop:

The Department of Computer Science (Cyber Security), Rajiv Gandhi National Institute of Youth Development (RGNIYD), Sriperumbudur organized a two-day workshop on cyber security and ethical hacking on 11<sup>th</sup> and 12<sup>th</sup> February 2023 in Seminar Hall. This workshop is organized for both RGNIYD fraternity and outside participants.

For RGNIYD participants, the fee towards this workshop was Rs.600.00 and for the other institute the fee was Rs.750.00. In this, total 48 participants were registered for the workshop where 24 participants were from RGNIYD and 24 participants are from other educational institutions.

The workshop notification was circulated among the RGNIYD faculty and students through email and it was also circulated to known academic circle for wide circulation. The flyer for this workshop circulated is shown below:

**RAJIV GANDHI NATIONAL INSTITUTE OF YOUTH DEVELOPMENT**  
Institution of National Importance by the Act of Parliament No. 35/2012

**DEPARTMENT OF COMPUTER SCIENCE (CYBER SECURITY)**  
organize

**TWO-DAY WORKSHOP ON CYBER SECURITY & ETHICAL HACKING**

**11-12 Feb, 2023 (10a.m-5p.m)**  
**Saturday - Sunday**  
**Seminar Hall, RGNIYD**

**About the Institute >**  
RGNIYD is an Institution of National Importance under the Ministry of Youth Affairs & Sports, Government of India. It serves as a think-tank for the Ministry and functions as a vital resource center with its multi-faceted functions of offering academic programmed at Post Graduate level encompassing theoretical and practical knowledge in various fields of computer science and allied subjects, recent trends in technologies, various dimensions of youth development and engaging in seminal research in the vital areas, coordinating training programmed for state agencies and the officials of youth organization, besides the extension and outreach initiatives across the country.

**About the Department >**  
The Department of Computer Science (Cyber Security) was established in the year 2021. It is committed to impart quality education in all fields of IT, a field gravitating by leaps and bounds. The department believes that the interplay of theory and practice can train the students properly in rapidly advancing curriculum. The Department offers M.Sc. in Computer Science (Cyber Security) full time Four Semester program spread over two years and Ph.D. in Computer Science. The M.Sc. Computer Science (Cyber Security) program provides solid theoretical and practical foundation to meet the standards expected from the IT industry and to those students who aspire for research.

**Theme of the Workshop >**  
Cyber Security is a broad aspect in which various computer security mechanisms are included. Ethical Hacking is subpart of cyber security and an authorized practice of detecting vulnerabilities in an application, system or organization's infrastructure and bypassing system security to identify potential data breaches and threats in a network. A Cyber Security expert protects the system by taking all the preventive measures whereas an Ethical Hacker uses offensive protective measures. This two days workshop is hosted with the prime intention of both theoretical and hands on session to familiarize and explore the topics discussed.

**Objectives >**  
The workshop is planned to cover the following topics:

- Foot-printing & Reconnaissance
- Open source Intelligence Fundamentals
- Penetration Testing and Ethical Hacking
- Social Engineering
- Advanced Penetration Testing
- Web application Penetration Testing
- Introduction to OWASP Top 10

Hands on practical training will be given in the following areas:

- Recover From SQL Injection Attack
- Data Backup and Recovery
- Recover From Web-based Flash Pack Incident
- Information Gathering and Foot-printing
- Operating System Hacking And Security
- Malware Illustrations (part: I and II)
- Web Architecture and PHP basics
- Email Attacks and Security
- Hacking Web Servers
- Hacking Web Applications
- Hacking Wireless Networks
- Web Vulnerability Assessment and Penetration Testing (part: I, II and III)
- Introduction to Kali-Linux and Its Tools
- Network Vulnerability Assessment (part: I and II)
- Wi-Fi Hacking and Security
- Cyber Forensics and Investigations
- Smartphone Attacks and Security
- Google Hacking Database
- Basics of Reverse Engineering
- Introduction to Compliance Management

**Who should attend ?**

- Anyone new to information security with some background in information systems and networking.
- Security professionals who want to fill the gaps in their understanding of technical information security.
- Anyone who wants to start career in cybersecurity.

### Our Speaker >

< **AJINKYA LOHAKARE** >  
CTO of Ditto Security

- Certified Ethical Hacker
- Certified Hacking Forensic Investigator
- Google Certified Application Developer
- Block Chain & Crypto Currency Expert
- Social Media Expert
- Josh Talk Speaker
- Security talk with AJ PODCASTER
- Vajra world record holder
- Best series entrepreneur award winner
- Assam book of world record holder
- Conducted 200+ workshop all over globe

### Co-Ordinator >

Chief Patron

< **Prof. Sibnath Deb Ph.D., D.Sc.** >  
Director, RGNIYD

Organizing Secretary & Convener

Co-convener

< **Dr. P.Thiyagarajan** > < **Dr. V.Sameswari** >  
Associate Professor & HoD Guest Faculty (On Contract)

### Registration Guidelines >

- Everyone willing to participate in the workshop must register by filling the GOOGLE FORM (with all details including payment details) on or before 10.02.2023, 06:00 PM (IST).
- Click here to register for workshop: [Registration Link](#)
- Registered candidates will be intimated through the Mail or WhatsApp.
- Registration fee details:

Category	Amount in Rs.
RGNIYD students / fraternity	600/-
Other candidate	750/-

- The maximum number of candidates will be limited to 80. Hence candidates are advised to register early.
- Amount for the workshop are non-refundable, non-transferable and non-extendable.
- How To Pay:

visit 'rgniyd.gov.in' > click 'Pay Online' > click 'Click here to pay all fee through online' > select state: 'Tamil-Nadu' and type of institute: 'Educational Institutions' > type 'RGNIYD ACADEMIC ACCOUNT' > select 'Registration Fee - Cyber Security Workshop'

### Workshop Requirements >

- Your system's processor must be a 64-bit Intel i5 or i7, Ryzen5 or 7, 2.0 GHz processor or higher.
- Good internet connectivity and laptop with full power backup.
- Assumes a basic understanding of technology, networks and security.

### Workshop facilities >

- Tea and snacks will be served to the participants for refreshment. (LUNCH will not be provided.)
- E-CERTIFICATE will be provided after completing two days workshop.

### COVID Note >

All candidates must either carry a valid vaccination certificate (both doses done) or a negative RT-PCR test report (sample taken within 72 hours before the workshop dates).

### Workshop Terms and Conditions >

- If in any case workshop is cancelled by only organizers due to any reason, the full amount will be refunded.
- If the workshop got postponed for any reason then candidates will get a new date to attend the event. (In this case also, refund will be processed if the workshop is cancelled not postponed).
- If we find any candidate misbehaving, damaging venue properties, or showing misconduct with any member of the organizing team or faculty members, his candidature will be cancelled immediately and he/she has to leave the venue immediately.
- Kindly bring your college id card/Aadhar card along with a photocopy of your pay slip details in mobile.
- It is requested to the candidates to follow a proper protocol and write a formal mail to <cybersecrgniyd@gmail.com> in case of any trouble & queries.

**Resource Person:**

Mr. Ajinkya Lohakare is working at Ditto Security as a Chief Technology Officer. He's a podcaster, Computer Security Expert, Certified Ethical Hacker, Certified Hacking Forensic Investigator and Google Certified Application Developer. Since 2015, he is assisted a law enforcement with cybercrime cases in Bangladesh, India, Srilanka and Asia.

Since 2016, he has been a paid security consultant, public speaker and author. He has given keynotes and presentations at a number of conferences around the world.

He has conducted more than 500+ Workshop all over globe. And He's been invited to some of the top institutions across the country ranging from NITs, to IITs. Additionally, Ajinkya works in education by speaking at technology conferences and running workshops.

His primary workshop, titled "**Unlocked**", which aims to teach software developers with little security background, how to defend their applications by looking at them from an attacker's perspective.

Ajinkya also has a vast experience in conducting customized training of art programmed for a variety of different audience. He has conducted more than 100 Different Training & Awareness Session which includes Financial & Banking Sector, Software Sector, Internet Service Sector, Government Sector, Transportation Sector, Industrial GOOD Sector, Education Sector, Service Sector and Healthcare Sector.

And he has delivered talks at general-interest events, such as JOSH TALK, VEDH TALK, THE DAIS CONCLAVE, and Data Security Event. He is also a public-interest technologist, working at the intersection of security, technology, and people. He does security consulting for 500 companies and the Law enforcements. He performs penetration testing services for the world's largest companies. Also he teaches Social Engineering classes to dozens of companies and government agencies.

Being a Cyber Security Researcher and Ethical Hacking Expert, Ajinkya has revealed numerous critical vulnerabilities, bugs and loop holes on websites and networks of major corporate, institutions and government portals.

### **Title of the Workshop:**

The resource person Mr. Ajinkya Lohakare handled the two days of eight sessions with hands-on on “Cyber Security and Ethical Hacking” with so many sources shared to participants regarding ethical hacking.

### **Demonstration:**

The resource person has summarized and demonstrated the following during this two-day workshop to participants:

- Foot-printing & Reconnaissance
- Open source Intelligence Fundamentals
- Penetration Testing and Ethical Hacking
- Social Engineering
- Advanced Penetration Testing
- Web application Penetration Testing
- Introduction to OWASP Top 10
- Recover From SQL Injection Attack
- Data Backup and Recovery
- Recover From Web-based Flash Pack Incident
- Information Gathering and Foot-printing
- Operating System Hacking And Security
- Malware Illustrations (part: I and II)
- Web Architecture and PHP basics
- Email Attacks and Security
- Hacking Web Servers
- Hacking Web Applications
- Hacking Wireless Networks
- Web Vulnerability Assessment and Penetration
- Testing (part: I, II and III)
- Introduction to Kali-Linux and Its Tools
- Network Vulnerability Assessment (part: I and II)
